Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 48-53 and 59-65 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson (5,934,751) in view of Chapel (4,237,577). Johnson discloses the use of a seat comprising a base (11); a backrest (25); wherein the base and the backrest are pivotally connected by a connection mechanism (33) that includes a plurality of hooks engaged with a bar (30); the hooks are connected to the backrest; wherein the bar is attached to the base; wherein the bar includes a plurality of flat sections (34), each of the flat section is engaged with the hooks; the backrest and the base are configured to be separated when the backrest is pivoted about 180 degrees from a normal use position (when the hooks are removed from the bar), see figures 1-4. Johnson shows the use of all the claimed invention but fails to show the use of at least one of the hooks opposes the curved surface of at least two of the other hooks. Chapel teaches the use of at least one of the hooks opposes the curved surface of at least two of the other hooks, see figure 2.

Response to Arguments

Applicant's arguments filed on July 14, 2004 have been fully considered but they are not persuasive.

In regards the applicant argument that neither Johnson nor Chapel teach or suggest the use of plurality of hooks, applicant is directed to figures 3-4 of Johnson and figures 6-7 of Chapel. The examiner is of the opinion that the hinge of Johnson is a hook and the elements 22,24 of Chapel are hooks.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
